TO LADIES.

MRS. MEDLEY begs to return her sincere thanks to the Ladies of Bombay and Out-stations for their kind support accorded to her during the time she has been in business in Bombay; the encouragement she has received has induced her to increase her stock, so as to meet the requirements of her Lady customers, and she trusts by strict attention to all orders entrusted to her to still merit the patronage already extended to her.

Mrs. Medley takes this opportunity of informing her customers that she has just unpacked a consignment of new goods from Paris and London, consisting of

Hats, Bonnets, Flowers, Feathers, French Boots, Ladies' Leather Belts. Ball Dresses, Mitts, Dress Holders, Fan Girdles, etc., etc.

Mrs. M. respectfully invites her Lady customers to inspect her New Stock of French Cambric Prints warranted fast colors.

The whole of the new goods are now on view, and marked at very low prices.

BILLIARD TABLES.

THE undoubted and established superiority of C. L. & Co.'s Billiard Tables is amply proved by the constant and increasing demand for them, showing that they are really the only tables now appreciated in India. This success is due to the steadfast efforts C. L. & Co. have always exerted to supply their constituents with really worthy articles at as moderate a price as is compatible with good workmanship and material. The generous and liberal support extended to C. L. & Co. for upwards of half a century, is sufficient proof that their endeavours to render satisfaction have been appreciated by a critical and discerning public.

While the superiority of C. L. & Co.'s Billiard Tables has been universally admitted in India, yet the difficulties and risks of transport have hitherto prevented their friends in Bombay from largely availing themselves of the undoubted advantages offered by C. L. & Co.

Now, however, C. L. & Co. beg to intimate to their patrons in the Western Presidency, that they have made arrangements which will enable them to offer their Billiard Tables at the same prices in Bombay as in Calcutta. A Branch Agency, under the management of Messrs. SOUNDY & Co., has been established at No. 22, Rampart Row, where Billiard Tables of C. Lazarus & Co.'s manufacture are constantly on sale; and while thanking their constituents for the patronage hitherto extended to their Firm, C. L. & Co. venture to express a hope that, with the increased facilities now offered, their manufactures will be as well known in Bombay as they are already in other parts of India.

BILLIARD CUSHIONS.

C. Lazarus & Co. always keep on hand a large stock of their new and improved COMBINATION EXPRESS Billiard Cushions which can be fitted to any table, the exact length and breadth of the slate-bed being the only information required.

Old Billiard Cushions, if the woodwork is in good condition, can be renewed on the new COMBINATION EXPRESS principle, thereby making an old table as good as new.

IMPORTANT NOTICE.

C. Lazarus & Co. guarantee the SAFE ARRIVAL of their Billiard Tables at any Station in India. Should any breakage occur in transit, C. L. & Co. agree to make good the loss without further charge.

BILLIARD LAMPS.

The six-light telescopic lamp, on the duplex principle, to burn kerosine oil, as adapted by C. L. & Co., is the best Billiard lamp ever introduced.

C. L. & Co. have always on hand a large assortment of Billiard, Pool and Pyramid Balls, in Ivory or "Patent Celluloid," Billiard Cloth, of the finest quality only, Cues, Tips, Chalks, Cement and every requisite for the Billiard Room.

FULL PARTICULARS ON APPLICATION TO S. ROSE AND CO.

"MOFUSSIL" SQUARE PIANOFORTE.

This Instrument has been constructed by S. Rose & Co. to supply the want of a Good, Cheap and Serviceable Pianoforte containing strength, lightness, and portability. Its recommendations are:—

EXTERIOR.—Plain and without any loose Ornamentations, the Case is of solid Mahogany, thus rendering it very safe in travelling.

SIZE AND WEIGHT.—Length, 6 feet 2 inches; Width, 2 feet 7 inches; Depth, 1 foot 1 inch; and when packed in a Zinc and Wood Case, weighs about 3 cwts. or about 4 Railway maunds.

COMPASS AND TOUCH.—The Compass is Seven Octaves, from A to A; the Touch is light and rapid in repetition.

INTERIOR.—The Strings are divided into two sets as in the "Sympathetic," and the tension or pull of the strings is resisted by two tension bars, one running nearly the length of the Piano from the metal plate, and the other extending from the metal plate to about half the length of the instrument. The action and all the interior work will be found of the best quality.

The Tone is almost equal to the largest Pianoforte, and certainly in fulness and richness surpasses that of any Cottage Piano.

This Piano has not the power, brilliancy, and expensive finish of the "Sympathetic;" its PORTABILITY, STRENGTH, and CHEAPNESS have been studied, and we have produced a good instrument, which, we believe, will be found to be the best and cheapest of the kind in the Indian market, and prove satisfactory to all purchasers.

Price, Rs. 650 Cash; Packing Case, Zinc lined, Rs. 25 Extra.

"La Pianetta Favorita."

The cheapest Cottage Piano constructed for India. Compass 7 Octaves, Solid Wood, no veneer, Trichord Treble metal pin plate. Price Nett Cash Rs. 375.

COMMERCIAL INTELLIGENCE.

TUESDAY EVENING, OCTOBER 8TH, 1878.

AT a meeting of Messrs. W. Nicol and Co.'s creditors held this afternoon, the arrangements respecting the committee to wind up their affairs was confirmed, the only alteration being that another native name was added to the list of members of the committee.

Yesterday's London telegrams report a better feeling in the Stock Markets, as further failures are no longer apprehended, and business here has in consequence almost drifted into its previous state of decorous inactivity, from which we see little prospect of much relief until increased arrivals of Cotton and Seed come to hand at the end of the year.

Consols remain unchanged at 94⅛, and French Rentes at 113⅓. Exchange on India is unchanged at 1s. 7⅞d. Enfaced Rupee Paper is still quoted at Rs. 77½ for Fours and Rs. 81 for Fours-and-a-half.

A payment of about £175,000 into the Bank of England is reported. The market rate of discount is given at 4½ per cent., which is ½ per cent. above the last quotation.

The London General Produce Markets yesterday were unaltered in every respect, and those for Linseed and Rapeseed were both dull at previous quotations for Bombay descriptions, viz., 52 per qr. for the former, and 48 per qr. for the latter ex-warehouse terms. Wheat is a little steadier.

The Liverpool Cotton Market yesterday was again dull, and closed in favor of buyers at a decline of 1-16d. per lb. all round on Surat descriptions. Mid. Orleans is, however, still quoted at 6 9-16 per lb. The American receipts of Cotton at the ports continue heavy, the total since the first of September being now 425,000 bales. We do not see what there is to maintain the price of Cotton even at its present level, and any advance appears to be an impossibility. If any improvement takes place in the Manchester Market for Piece Goods it is possible that the decline in Cotton may be less severe, but trade throughout the North of England is at present in such a deplorable condition that we cannot look for much support from that quarter.

The American telegrams of yesterday report a further decline of ½ cent. per lb. in Mid. Uplands on the spot. Futures are unchanged at 10⅛ cents. per lb. for January delivery. The receipts to date are as follows:—

	1878.	1877.	1876.
Three days' Receipts.....	49,000	27,000	51,000
Total since 1st Sept..	425,000	179,000	396,000

Reuter quotes Bar Silver at 51½d per oz., but private telegrams quote it at 51d. per oz.

STERLING EXCHANGE to-day has shewn a slightly weaker tendency, but rates are nominally unchanged. Transactions have again been most limited, and until the Calcutta Market re-opens on Saturday we do not expect to see any great fluctuations, as both buyers and sellers continue to operate with extreme caution. It is generally expected that Council Drafts on Wednesday will be allowed below last week's rates, in which case we may look for a corresponding decline in Sterling Exchange. We quote:—

Bank Bills, on demand	1s. 7 21-32d.	per Rs.
Do. 6 months' sight...	1s. 8 3-16d.	,,
Credits, 4 ,, ,,	1s. 8 3-16d.	,,
Documents, 4 ,, ,,	1s. 8¼d.	,,

On Calcutta we have not heard of any business, and rates are nominally at 100 to 100 1-16 on demand, and 99¼ at 60 days' sight.

GOVERNMENT PAPER is quiet with a weaker feeling in the Market. There are sellers of Fours and Fours-and-a-half at Rs. 95½, and New Fours-and-a-half at Rs. 100¾.

THE SHARE MARKET to-day has been dull without much change in rates in Spinning and Weaving Companies; Dharamseys shew a further decline of Rs. 10, being now quoted at Rs. 775, Bicumjees Rs. 5, Nurseys Rs. 5, and Orientals Rs. 10 per share. Colabas have advanced Rs. 5, and other quotations are unchanged. In Land Companies Colabas have declined to Rs. 885.

In COTTON not a single transaction has been reported for several days, but dealers continue firm at our quotations, viz:—

Good Fair Oomras	Rs. 205 per Candy.	
Fully Fair ,, ...	200	,,
Fair ,, ...	195	,,
Good Fair Dhollerah	205	,,
F. G. F. S. Dharwar	210	,,
G. F. Compta	195	,,
New Oomra (Jan.-Feb. delivery)...	200	,,

LINSEED is steady at Rs. 7-1 per cwt., but there are few buyers, and it seems improbable that the price will be long maintained.

RAPESEED is unchanged. Supplies continue insignificant.

WHEAT remains quite unaltered at nominal rates, so far as export qualities are concerned.

In FREIGHTS there is no change to notice; the one Canal steamer on the Liverpool berth is still engaging small parcels at 10s. to 12s. 6d. per ton. By sail there is still nothing doing.

PIECE GOODS are nominally steadier, but there is no material increase in the off-take.

COALS are unchanged.

THE MONEY MARKET.

(Nicholls and Co's Financial Circular for September.)

THE position of the market at the close of September is much the same as it was a month ago. Trade generally remains in the same depressed state, money is equally abundant, the Bank's rate still stands at 4 per cent., about 1½ per cent. above that which prevails elsewhere. Exchange on London, notwithstanding the steady fall in the quotations for Bar Silver in London, has slightly strengthened. Government paper is weaker, and a steady, cautious business has been conducted in the Share market at well sustained prices. At the commencement of the month the Secretary of State's Bills were offered in London for £300,000, and realised 1-7 7/8, something less than had been obtained in the previous week. On the following week £350,000 was placed at 1-7-11/16; later on, for a like amount 1-7½ was the average accepted tender, and the last sale fetched 1-7-15-16. There has been an improvement in the exports of Jute, Tea, and more activity in the Piece-goods trade, but at no advance in prices; and the opinion, though not over-sanguine, appears to prevail that business will assume larger proportions after the holidays.

On the 21st the result of the Notification relating to the transfer of the 5½ per cent Loan was published in the *Gazette*; it fully bears out the anticipations formed last month. Out of ten crores of the old 1859 Five-and-a-half per cent. Paper, Rs. 6,96,38,000 have been offered for conversion into the 4½ per cent. Transfer Loan of 1879, while only Rs. 1,72,000 were submitted for transfer to the "seven shilling portion" of that Loan. The spirit of dissatisfaction with which the latter form of transfer was viewed both here and in England does not speak well for the wisdom and astuteness of the propounder of the complicated and disadvantageous alternative offered to holders, and, recognizing the difficulty, Government took care to let the public know that it was not bound absolutely to pay off the 5½ per cent. Loan at maturity, and that unless favourable terms were offered for the residue, the option would be availed of to postpone the operation "until the condition of the market enabled it to command better terms." Notwithstanding this benevolent warning to timid and hesitating holders of the cherished 5½ per cent. Paper, who would gladly welcome the prolongation of their holding for a period at that rate of interest, and chance the contingency following a possibly improved market, there will probably be 3 crores of residue to be publicly tendered for on the 17th October. The time for surrendering notes of the 5½ per cent. Loan was extended from the 16th September to the 7th October for the convenience of the public, but it is hardly likely this extension of time will materially affect the result approximately arrived at, as to the rate of tender likely to be accepted by Government in face of the *quasi*-official warning as to its independent action, the present state of political and financial affairs do not favour the opinion of an early improved "condition of the market," and since the announcement of the new Transfer Loan, Government Securities of every description has been daily falling. On the 12th August 4½ per cents. of 1878 were Rs. 102. 12-0, and the present quotation is Rs. 100-8. Four per cents. were Rs. 97-2 on the 10th ultimo and are now Rs. 95-6. The intervention of the *Poojah* vacation prevents the possibility of any accurate forecast as to the rate at which tenders may be safely made for the 3 crs residue, but it seems clear that in the present political juncture, Government will not lightly disregard a reasonable rate of tender. If 3 crores of capital can be had at 4½ per cent. interest, it is not likely that 5½ per cent. will, by preference, be maintained. The latter rate is the equivalent of 1 per cent. per annum on Rs 18-2-11 of capital, hence the equivalent of capital at the lesser rate of interest would be Rs. 82-13-1. Unless, therefore, Government secures for the said 3 crores of residue something considerably above Rs. 83, tendered by the public, it would be wise to wait for a "better market." The saving of interest on the 7 crores already offered for tender will be 7 lakhs per annum, and the acceptance of say 3 per cent. below *par* will entail a loss on the principal of 9 lacs, so that the expenditure of the year 1879-80 is not likely to be lessened by this transfer, whatever may be the saving in future years.

The threatened trouble on the Frontier augurs most unfavorably for trade. No sooner has "peace with honor" been declared in Europe, than we are threatened with a campaign in Afghanistan in order to maintain that "honor" inviolable at our very doors. Upon the issue more depends than can at present be calculated upon, and until that issue is certainly known, a revival of commerce and industry, and the consequent increase in the circulation of long pent-up capital, cannot be reckoned upon; at the present moment, with all the uncertainties surrounding the situation, capitalists will observe a prudent policy of inaction in order that, come what may, the effects anticipated, whether good or bad, will be subject to appreciable mitigation by having been foreseen and provided against.

WEDNESDAY, OCTOBER 9, 1878.

WE are authorized to state that there has been up to this time no collision between British troops and troops of the Amir of Kabul anywhere on the Frontier, and that no immediate attack on Ali Musjid is contemplated. This official confirmation of the independent opinion we ventured to express yesterday will, we hope, tend to disabuse the public mind of the false impressions created by the manufacturers of sensational telegrams at Simla and other up-country stations. The *Pioneer* is the newspaper chiefly responsible for the invention and circulation of rumours which have their origin in the imagination of coffee-house politicians who are annoyed at finding that the Government will not take them into its confidence, and who consequently set their wits to work to put the most alarming construction on every movement of troops which they do not understand. These gentlemen, having amused us during the last few days with circumstantial stories of how Ali Musjid was taken,—though all the time they represented the Amir's men as remaining close to Jamrud, between Ali Musjid and Peshawar,—now have the assurance to inform us that the British force told off to attack the Afghan position has returned into Peshawur because it found itself too weak for the task! What a confession of imbecility this would be, if it were true that the Afghans have at the outset of the campaign taken the aggressive in superior force, and compelled the English army of conquest to beat a retreat. Why, the Government that had allowed itself, after all its bragging, to be thus humiliated could not hope to keep the Indian Empire of England together for six months, but would be speedily and deservedly kicked out of the country. Luckily, there is no truth whatever in such reports. Beyond making extensive military preparations the Government of India has done nothing yet; and we are assured that the moment action is resolved upon the decision of the Government will be communicated by telegraph to the leading Indian newspapers. We therefore give our readers fair notice, that, although we are bound to follow a bad example, and to waste money on telegrams which in our own poor judgment are merely so much rubbish, we have no faith ourselves in any reports announcing an outbreak of hostilities as imminent unless these are conveyed in official telegrams.

IN the Parliamentary Blue Book on the Indian army published last year, great stress is laid by all the authorities who have recorded their opinions therein upon the senility of the commanding officers of the native regiments. Bengal is reported as bad in this respect, Bombay worse, and Madras worst of all; but though the Marquis of Salisbury, the Government of India, and everyone responsible to the public for the efficiency of the army fully acknowledge the fact, there has been nothing done, there is no news of anything doing, of a tendency to give native corps better commanding officers than can be thought of in connection with five and thirty or forty years' service in India and the army grade of colonel, or at best brevet colonel. A native regiment is a costly necessity of the situation here. Fifteen thousand pounds a year would not probably cover its expenses to the State, and it is important that it should be maintained at a standard worth the money expended on it; but it is difficult, impossible, we should say, to believe, that a native regiment can be what it ought to be when the commanding officer is a man long past the prime of life, and only one to make a convenience of the service to stick to it to the last. If the reader will look at the Madras Army List—the army which is reported as the worst for stagnation of promotion—he will find plenty of food for reflection on this point. The junior regimental officiating commandant—the youth on *probation*, so to say—is of no less than thirty-two years' military service, his commission dating as far back as 1846; and if we suppose that he entered the army at twenty years of age, this gives his age, as a *probationer* for command, at fifty-two years! Now, this is a preposterous age for regimental command, considering that, at fifty-five years, a civilian is deemed superannuated; nevertheless, there are officers commanding regiments in the native army, who top the limit for civilians, and what is worse, their immediate subordinates, the wing commanders, are nearly as old and nearly of as high a grade in the service as themselves. The question of age, or rather of the limit of age for military service, is often discussed, and no doubt instances can be adduced of men of 55 years, or even sixty, who are hale able men, both physically and mentally; but exceptions only prove a rule, and the rule is that after thirty years' service, or fifty of age, an officer is seldom fit to command a regiment, and is quite out of place in the office of wing commander. Many officers are monstrously obese at that age, others are beset with physical infirmities, more of them are full of crotchets of the country amounting almost to insanity; numbers cannot ride, and not a few are both physically and mentally unfit for military responsibilities of any kind. To place any one of this category in command of a regiment on claims of mere seniority, is briefly to render a regiment costing the country more than £15,000 a year ineffective; nevertheless, the thing is done every day without question, because the Secretary of State will not be at the trouble or expense of pensioning the old veterans of the Indian army. The broad rule for that service undoubtedly is, that no officer superior to the grade of lieutenant-colonel should command a native regiment, and then only for five years, when he ought to be compelled to retire. That no wing commander should be above the grade of major, the duties of that office being essentially those which belong to that rank. The present system of giving regiments to colonels or brevet colonels, and wing commanderships to lieutenant colonels, strikes at the efficiency of the whole native army, and, though condemned by the highest military authorities in India, is a remarkable example of what precedent and tradition can do in this country, or rather at the India Office. It is, in fact, nothing more than an expedient for the shunting of the claims of veterans to liberal pension. Its meaning is, that the Secretary of State does not like to pay an old officer the pension justice entitles him to, and let him go. The plea is economy, and the economy itself is the disorganisation of regiments commanded by men too old and enfeebled by climate for the duties allotted them.

The only visible remedy for this state of things is to apply the Royal Warrant for the British army to the Indian service without partiality, favour, or affection, but with strict justice to all concerned. Indian officers ought in fairness to be allowed to reckon all their furloughs and leave of absence in or out of India as service counting towards pension, and they should be granted a certain bonus for each year's Indian service to place them on a par with Line officers in the matter of restitution of purchase money. It would be real economy to deal liberally with officers who, if they remain in the service, will cost the country more money than any they are likely to get for leaving it, and it is much to be desired that some such action as is here advised may be taken this year, and before a probable war tests the stability of a regimental organisation which is erected on a basis of senility. There is a strong feeling in favour of war in India at this time. We hear military men conversing of the prospect with great eagerness, and not because they have any especial hatred of Russia, but rather because they know that the present ridiculous system of officering the native army must collapse in view of the exigencies of warfare. However, the public would prefer the *exposé* to occur before the war than after it commenced, and it would be better that the native army was placed upon a good footing before hostilities began, than that we should have to wait for fighting to observe the uncertainty of its standing. Neither do we need many arguments in the matter. Figures speak for themselves, and when we read in the official army lists of three colonels to a regiment numbering one hundred and fifty years of age among them, it is difficult not to think that such a regiment is not in the best possible fettle for campaigning.

Happily, we have reason to believe that the absurd scheme of "commutation of Colonel's allowances," which was calculated to keep old officers in the service rather than induce them to quit it, is to cease this year, but a very comprehensive and effective plan of retirement will be needed to take its place, bad as it was. Because the Staff Corps is fast running into colonels, and colonels have the prior claim to all regimental appointments. The number of captains promoted to majors, and of majors to colonels, every year is truly alarming in view of the inevitable association of these officers with the native regiments, and, to make matters worse, we hear of adjutants, quarter-masters, and even of wing subalterns being in the future allowed to hold their appointments as field officers,—possibly as more colonels. This is the climax. After this the officers' list of a native regiment will read like the longevity page of the Bible, commencing with Methusaleh and ending with the man who never died at all.

But though this question, like every other of serious import, may have a ludicrous aspect, it is one which most urgently courts inquiry and reform. Inquiry do we say; the injury has come and gone. The senility of the Indian armies, especially of the commanding officers, has been denounced in a Blue Book by all the highest authorities in India, but the reform has yet to be inaugurated if the Secretary of State for India has not forgotten it. We have to hope for something really resembling the originally intended organisation of the native army, not the present invalid and veteran battalion agglomeration, and the sooner it comes the better. Because the times are threatening, and they are no times for dallying with needful military reforms. Any-day an Indian army may be required to march into Central Asia, and we do not fancy it will be much of an army if many of its regimental officers have to collapse through sheer age at the offset, and there are none to take their places but young men neither speaking the language of the sepoys nor acquainted with their discipline.

THE KABUL EXPEDITION.

THE 12th B. C. arrived at Rawalpindi on the 1st, and left yesterday *en route* to Kohat.

Major-General Roberts left Rawul Pindi for Peshawar on the evening of the 1st. He will remain at Peshawur for a few days, and then proceed to Kohta, *via* the Pass.

The 11-9th R. A., Mountain Battery, arrived at Rawul Pindi from Khyra Gully on the 1st, and proceeded towards Kohat on the 3rd, accompanied by a squadron of the 10th Hussars.

SIMLA, OCT. 3.

Major Hatchell, 60th Rifles, has been appointed Officiating Assistant Adjutant General *vice* Major Farrington, brought on the establishment.

Colonel Bunbury, from Jubbulpore, has been appointed to the command of Cawnpore.

The Ameer, ostensibly temporising, is said to be really amassing troops at Ali Musjid and Candahar, also to be threatening Quetta. The Government of India is communicating with him, and, it is rumoured, hopes for a compromise. The motive is said to be a financial one.—*Civil and Military Gazette.*

RECEPTION OF THE NEW COMMANDER-IN-CHIEF.

(Extract from District Orders.)

BY BRIGADIER GENERAL C. T. AITCHISON, C.B., Commanding the District.

Bombay, 8th October 1878.

LIEUTENANT-GENERAL WARRE, C.B., the appointed Commander-in-Chief of this Army, being expected by the incoming Mail steamer, the troops, as under detailed, will be ready to turn out at such moments and take up the positions named between the hours of 5 and 8 a. m., and 4 and 6 p. m., on the usual signal guns of the arrival of the steamer being fired. If the steamer is signalled between 8 a. m. and 4 p. m. commanding officers of regiments will await orders.

The 9th Regiment N. I. will furnish a guard of honour of 100 rank and file with band and regim

SPECIAL TELEGRAMS FOR THE BOMBAY GAZETTE.

(FROM OUR OWN CORRESPONDENTS.)

THE FRONTIER EXPEDITION.

ALLAHABAD, Oct. 7.

The detachment of the 81st left Cherat for Peshawur on Saturday; the 9th will follow and also the Rifle Brigade when carriage returns. The Peshawar correspondent of the *Pioneer* telegraphs that the storming of Ali Musjid was first fixed for the 5th, then for to-day, but now is definitely postponed under orders from headquarters. The force is considered inadequate, and will therefore return to Peshawur. The Nowshera garrison is not to move until the 8th October.

The statement in the Simla telegram, published on Saturday, that Nawab Gholam Hussein was believed to be on his return journey from Cabul requires correction. The *Pioneer* understands that communications have been received from the Nawab himself saying that he is still detained by the Ameer's orders, who, it was rumoured, is engaged in writing answers to the Viceroy's recent letters.

LAHORE, Oct. 8.

It is currently reported that our cavalry outposts were fired upon in the neighbourhood of the Khyber Pass.

The 12th British Infantry are going to the frontier, and the 51st are ordered from Subathoo to Umballa, leaving women and children.

Fresh troops are ordered to the frontier.

General Biddulph arrives at Mooltan to-day. His orders are sealed.

LAHORE, Oct. 8.

The Peshawar correspondent of the Lahore paper telegraphs that Cherat troops are ordered to Peshawur immediately. The Guides and Mountain Battery advanced to the mouth of the Khyber Pass yesterday; the remainder of the force are still stationary. Colonel Chichester is expected to arrive this evening to command the brigade. The health of all is good.

MURDER OF CAPTAIN PEMBERTON AND A MUCCADUM.

KHANDWA, Oct. 8, 10 A.M.

Captain Pemberton was murdered this morning while inspecting some work near the railway line by a Mahomedan, who shot him with a revolver. He was killed on the spot, and will be buried this evening.

Muccadum Badel Buctaur was shot whilst arresting the murderer of Captain Pemberton. He expired immediately.

(FROM ANOTHER CORRESPONDENT.)

KHANDWA, Oct. 8.

A Mahomedan moonshee, lately dismissed from the Deputy Commissioner's Court, murdered Captain Pembertons this morning whilst inspecting some works. A railway muccadum, attempting to capture him, was also shot dead. The murder is attributed to revenge for an imaginary wrong, and has no political significance.

The Captain Pemberton referred to in our telegram is, we fear, a young officer of great merit attached to Colonel Hancock's office as Acting Deputy Consulting Engineer for Railways. These assassinations of British officers are becoming unpleasantly frequent in India].

LIEUTENANT MUIR, of the Body Guard, officiates for Captain Loch, as A.-D.-C. to his Excellency the Viceroy.

WE hear that Mr. Caird has appointed Lieutenant Leach, R. E., to be his Private Secretary during the term of his connexion with the Famine Commission in India.

AN Australian paper tells us "that Dr. Hearn, of the Melbourne University, has just published a book called 'The Aryan Household,' which follows out the 'investigations of Sir Henry S. Maine, Mr. Taylor, and Mr. M'Lellan into the primitive constitutions of the great race of which we are descendants. The book is one of great erudition and research, and carries forward the inquiries of the authors we have named to some advanced results."

On the 5th inst. there was a tremendous flood in the Hindry. The bridge is still standing, but the Bellary road was impassable for some hours. The Canal aqueduct parapet is damaged for some length.

REPORTS have been received by the Council of Regency at Cutch, that locusts have made their appearance in different parts of the Province, and in some places have injured the bajri crop.

THE following gossip about official changes in Burmah will interest some readers:—"As I told you was probable some time ago, Colonel Sladen goes home for two years, possibly not to return to the East again, as he is the enviable possessor of a private income which should surely tempt him to remain at home. Major Street retains the portfolio at the Secretariat until spring—having refused the Arracan commissionership—when he goes on long furlough. Major Plant acts meanwhile in Arracan, by a singularly lucky stroke of fortune, namely, Major Street's refusal of the appointment. Rangoon district gets Mr. deCourcy Ireland as deputy commissioner again, a sure guarantee for the efficient working and admirable order of difficult districts. Mr. Allen, the Government advocate, has come back, and there is again some hope that the course of Government prosecutions may run smooth once more."

THE latest news received at Sydney from New Guinea is by no means encouraging to the gold prospectors. Captain Digby, of H. M. S. Sappho, who had returned from the island just before the last mail left, "reports that affairs at Port Moresby were bad. Great numbers were doing nothing, and in a state of great destitution and misery from want of provisions. He had visited the main camp at Laloki, and found all the men sick and not recovering. He says their state is most pitiful, with no work and no prospects whatever. From the character of the country, as described by the diggers, there seems to be nothing but dense tropical vegetation, with continual rain. There is no open country. The worst calamity that can befall Australia is the discovery of gold, for working in such a climate and country will kill nearly all who go to it. He considers New Guinea unfit for habitation, except along the coast. As passengers the Sappho has brought five of the colonist party. The total distance traversed by the colonist party was 370 miles, and not a grain of gold has yet been discovered by them."

THE *Pioneer*—A private letter from Persia informs us that grand fetes have been held at Teheran in honour of the return of the Shah, from his European tour. His reason for abandoning the intention of visiting England is stated to have been pique at receiving no invitation, formal or informal, from our Government, in addition to wounded dignity at some articles in the *Times*. Disgusted at the coldness of England, he has thrown himself, not as was hastily taken for granted, into the arms of Russia, but into those of her greatest continental antagonist, Austria. On his second visit to Vienna he made arrangements with the Emperor for the supply of war material, including breech-loading rifles and Euchatius guns, and for the loan of officers to drill his troops, and officials to reform his administration. Two millions of francs were left at Vienna as a deposit; and a General, a Colonel, and several subaltern officers have been engaged to leave for Teheran at once. The attitude of Persia is of peculiar interest just now, and it is satisfactory to find that the Shah is not likely to bring a pliant tool in Russian hands, though he may be inclined to do his best to turn our quarrel with Afghanistan to his own advantage.

THE writer in the Englishman's "Week" calls attention to the criticisms of the *Statesman* on the policy of the Government towards Afghanistan. He says:—"Our soldiers will start with the comforting assurance, if a soldier is allowed to think of any such things, that war with Kabul is supported by public opinion both in England and this country—nay, even by the Press of the Continent, which seldom approves of England's action in any matter. Even the opinion of Lord Lawrence, we has for so long been looked upon as the chief authority in all Indian affairs, is, in this instance, langhed to scorn by the Press. John Bull has got his back up at the idea of being insulted by a petty State like Kabul, and war it must be. Of course there are always two sides to every question, and the Amir has found a strong supporter in the *Statesman*, which declares that we have fastened a quarrel upon the innocent Afghan, and that by so doing the nation is 'heaping up wrath for itself against the day of wrath.' And then follows after the usual manner of the *Statesman*, a flood of abuse of the English nation and the Government more calculated to excite disaffection towards the Government and the governing race than anything which ever appeared in a vernacular paper, whilst Russia is held up as the saviour of Eastern nations and a protector of the oppressed. As few persons would believe that such writing could appear in an English paper, I will give an extract or two. 'Wherever Russia has gone in the Khanates, it has been as the enemy of evil. Let her rulers be what they may, there is not an Asiatic from Constantinople to Kashgar who does not associate the Russian name with the suppression of dreadful misrule here afflicted those remote territories from the dawn of history; and the English name with the dastardly invasion of Afghanistan for our own sinister ends, and with the active support of the bloody kidnappers that Persia and Russia have been striving to root out for the last forty years. And we then wonder that after our long course of violence and infamy, and now of our Punic faith towards Shere Ali, the man is no longer able to give us credit for loud professions we are ever making of our philanthropy, disinterestedness, and good faith.' And here is another elegant extract. 'Modern history does not contain a story of such dishonour to any civilized Christian people as the story of our relations with these Afghans since the year 1839.'"

THE ROOKMINIBAY DISPENSARY AT CALLIAN.—During the month of September 462 patients were treated in this institution, of whom 379 were new admissions (including 2 indoor patients), of which 335 were cured, 59 absented, and 68 are still under treatment. This includes 83 remaining from last month.

HOUSEBREAKING AND THEFT.—A Mahomedan, named Oomer Cassum, was yesterday convicted by Mr. C. P. Cooper of housebreaking and theft of property, consisting of a bag containing Rs. 79-10 in cash, belonging to Hussain Ahmed. He was sentenced to eighteen months' hard labour.

GAMBLERS.—Ensjee Toolajee and six others were yesterday charged, at the instance of Mr. Inspector Mahon, before Mr. W. Webb, with being found gaming with instruments of gaming in a common gaming house at Coombarwada 2nd Lane. Upon the evidence adduced they were all adjudged guilty. Prisoner No. 1 was fined Rs. 20, another was fined Rs. 5, and the rest Rs. 5 each.

THE MURDER OF A HACK BUGGY DRIVER.—The adjourned inquest into the circumstances connected with the death of the hack buggy driver named Adum Abdool Wahed, who was found lying dead with his throat cut on the Frere Road on Sunday night, the 22nd ultimo, was resumed on Monday last. The evidence of the owner of the buggy that deceased had been the driver, the policeman doing duty on the Frere Road, and that of the Coroner's Surgeon who made a *post mortem* examination of the body of the deceased, was taken, after which the jury returned the following verdict,—"That the death of Adum Abdool Wahed was caused by a wound in the throat inflicted on him with a cutting instrument by some person or persons to the jurors unknown, under such circumstances that the act of such person or persons was culpable homicide amounting to murder."

BILLIARDS.

LAST night, Mr. Stanley played Mr. Bridger a return match, 1,000 up, spot stroke barred, Mr. Bridger receiving 500 points. Mr. Stanley passed his opponent before he had reached 700, and, taking it easy, won by 99 points.

THE IMPRISONMENT OF THE MANDALAY PRINCES.

OUR latest advices from Mandalay are not of a very positive character, being rather a collection of rumours current at and prior to the time the letter to us was written, than a reliable account of what had actually occurred. We can only apologise for this by pointing out the extreme difficulty of finding out, during a crisis like the present, what is actually going on inside the palace. The names of the Princes who, with fifteen or twenty members of their families, are now in the British Residency, are Nyoung Yan and Nyoung Oke, sons of the Myouk Shway Yay Queen. The uncles of these Princes, Moung Tetto, the Myin Soo Gyee Woon, and Moung Oke, formerly Governor of Rangoon, are said to be with their families in prison. It is said that the two first-named Princes fled from the palace for their lives, believing that the King was really dead. The Kathah Prince, who had once before rebelled, and was saved from execution through the intercession of Mr. Marks, endeavoured to escape, but was arrested after he had tried to disguise himself by shaving his head. All the other Princes were put in irons, and from all accounts appear to have been treated with great harshness and severity, being kept without food for several days. The Taheh Prince, a cousin of the King, is said to be fastened to the wall of his prison with three chains and is guarded more strictly than the rest, being, report has it, one of the most cruel and bloodthirsty men in Upper Burmah. The Head Queen on hearing of the condition of the Princes, sent them some food, but it is feared that most if not all of them have perished either through starvation or at the hands of the executioner.—*Rangoon Times.*

ADJOURNED MEETING OF MESSRS. W. NICOL AND CO.'S CREDITORS.

THE adjourned meeting of the Bombay creditors of Messrs. W. Nicol and Co. was held yesterday afternoon at their premises in Elphinstone Circle, when the representatives of many of the local Banks and a large number of Hindoo merchants were present. Mr. Charles Douglas (of Messrs. Ritchie, Steuart and Co.) presided as on the former occasion.

The Chairman—At the last meeting a promise was made that a statement of the accounts of the firm would be laid before you to-day. The time allowed for the preparation of these accounts has been very short, considering how voluminous they are; but I am glad to state that this has been done. The statement will be given before any other step is taken in to-day's proceedings. The accounts are long, and it would need an accountant almost to explain them: but Mr. Maxwell, who is thoroughly conversant with the business, will proceed to give you the details from the accounts.

Mr. Maxwell—I can now lay a balance sheet before the creditors. It is very nearly correct, both sides of the account balance within Rs. 2. Comparing it with our last balance struck on the 31st July last, we have every reason to suppose that it is very nearly correct. Before reading the account, however, I am sorry to say that I have to correct a small error I made at the last meeting in answering a question put to me by Mr. Mowat. I said that, with the exception of one Company—the British India—we had no monies of any Company mixed up with our own. I now find that about Rs. 8,000, unfortunately, belonging to the Mofussil Company, got mixed up with our general cash. It was owing to some book entries having to be made that the money was not lodged in the Bank in time. I think this explanation is due to the meeting after what I said the other day. I have made up a statement of the liabilities and assets in as condensed a form as possible. I shall read the various headings under which we have put them, and I shall be happy to furnish any gentleman with any explanation of the details who desires it.

Mr. Maxwell then read the following statement of accounts:—

Mr. Maxwell—That is a full statement of our affairs: and I shall be only too happy to explain anything any gentleman would like to have an explanation of in connection with any of the items in the accounts.

In reply to a question put, Mr. Maxwell next gave a statement of the assets under lien. The shares in the Carwar Company and the Mofussil Company represented an aggregate amount of Rs. 4,65,019-10-0, there was one small barge of the value of Rs. 2,900, and the Matheran bungelow on which the firm spent last year Rs. 29,000. The shares in the Bombay Bank were given over to the Bank under the Presidency Banks' Act. Other assets under lien were also mentioned from a statement, and the total of them amounted to Rs. 13,22,222. Details of these were also given from another statement. [Copies of these statements were not available to us.] Mr. Maxwell further said that, before the accounts were explained in Guzeratee, Mr. Conroy [of Messrs. Rimington, Hore, and Conroy, the firm's solicitors] thought that he should give an explanation as to the manner in which the City of Glasgow Bank bills had been drawn by Nicol and Co. Those bills were drawn under an agreement made in 1873 between themselves and Smith, Fleming and Co., the London house; and there was then in force a power of attorney empowering both Smith and Company in Bombay,—Smith, Fleming and Company stating that they would guarantee Nicol and Company against any loss. Nicol and Company therefore continued drawing bills as requested by Smith Fleming and Company. The bills from Colombo were drawn on Nicol and Co.'s behalf only lately; and whenever, they had a chance of placing these bills in the market Smith, Fleming and Co. wished them to do so; and they had accordingly drawn to the extent of £115,000. The other bills were drawn and sent home, as requested in the letter of instruction, in various amounts mail after mail. Mr. Maxwell believed the Colombo bills were well secured by property in Colombo. He was legally advised that the whole amount of these bills, especially the Colombo bills and the bills sent to Smith, Fleming and Co., might possibly not come against their estate at all; but until they got certain information from London, for which he had telegraphed, as to the agreement between Smith, Fleming and Co. and the City of Glasgow Bank, he had no means of ascertaining whether the bills were a fair, legitimate charge on their estate or not. What he was advised, so far as matters had gone at present, was that they were simply accommodation bills.

Mr. Sunderrao Raghunath explained in Guzeratee the statement of accounts.

Mr. Kessowjee Naik—Some of the creditors wish to know if you are in a position to come to an arrangement with the Bombay creditors if they wish it.

Mr. Maxwell said that could not be done without reference to Europe and to the liability of £87,500, of which £256,519 was their liability to the City of Glasgow Bank. In the course of conversation with native creditors, Mr. Maxwell explained that the assets were—secured Rs. 13,22,222, and unsecured Rs. 19,45,933, making a total of Rs. 32,68,154. Deducting nine lakhs out of this for depreciation, he would remain a balance of twenty-three lakhs in assets. Even if they took the City of Glasgow debt at twenty-five lakhs and the Bombay debts at seventeen lakhs, the total debts would be forty-two lakhs against twenty-three lakhs as assets, which would give at any rate eight annas in the rupee.

Some desultory conversation took place.

The Hon'ble Mr. Balfour—These explanations as to details could be given at any time. I call on the Chairman to proceed with the business of the meeting.

Mr. Sharpe—I propose that we go on with the proceedings. We cannot wait here all night doing nothing.

Mr. Kessowjee Naik—Then it is desirable that we should pass the resolutions about winding up; and it would be for the committee and the trustees to see what is the best course to be pursued.

The Chairman—If no other gentleman has any remark to make, I have merely to put before you the resolution we passed at our last meeting, and which we have now met to confirm. Before putting it to the meeting, however, I would merely say that we have been from the accounts submitted to us to-day that, if the estate is wound up properly and without any extreme expense arising from litigation, we should get something; and I should recommend the native gentlemen especially to bear in mind that, we did not consider best to assist in bringing about this private liquidation, the matter will get into the hands of the Official Assignee, and you will then get little or nothing. We can all recollect that estates that have gone into those hands have turned out bad in the end. Among the assets we see a number of things which must be handled in a delicate manner in realizing; and nobody is more competent to do that than merchants and men who have experience of that sort.

Mr. Thakurdas Atmaram, a solicitor, said—I am instructed on behalf of fourteen creditors representing in all about four lakhs of rupees to appear at this meeting and to ask that the consideration and confirmation of the resolution passed at the last meeting be adjourned to some future day. At the last meeting when this resolution was passed, the general impression was that Nicol and Co. were brought to grief by the City of Glasgow Bank. The natural conclusion to which most native dealers came on the occasion was that Nicol and Co. had suffered heavy losses owing to the failure of the City of Glasgow Bank. This impression was confirmed and undoubtedly the statement made at the last meeting before the resolution was formally put to the meeting. In the interval between the date of that meeting and to-day, certain facts have come to the knowledge of some of the creditors, which totally contradict certain statements, and the creditors no doubt believed that those suspicions would be fully cleared to-day. There has been hardly any time yet for the creditors to bring the matters on which they naturally wanted explanation before the partners representing the firm here. Now, it appears from a telegram published in the newspapers that the City of Glasgow Bank had advanced to Nicol and Co., or to their corresponding house in England, something like eighty-five lakhs of rupees in cash advances and on acceptances to the extent of ninety lakhs, representing in the aggregate about one and a half crore of rupees, in which either the Bombay firm or their London house is indebted to the City of Glasgow Bank. Those figures undoubtedly led many people to believe that it was not the City of Glasgow Bank which had brought Nicol and Co., or their corresponding house in England, to grief; but that it was the heavy advances made to these and other firms that had actually driven the City of Glasgow Bank to the wall. However, that might be, I do not think that it is a matter which concerns the native merchants here, but it is undoubtedly a significant fact that it reverses the position which Nicol and Co. then occupied in the minds of the native merchants. If it be clearly found out that, owing to the large advances made by the City of Glasgow Bank to Nicol and Co., this failure has been brought about, it would appear as if they had a prior claim to the assets, on somewhat lax principles; and I think the creditors here are entitled to have the matter clearly explained. Before I was instructed to appear at this meeting, I may state that I was asked to place before the members of the Bombay firm certain queries. I have got those queries here with me, but it now appears to me from the statement of the liabilities and assets of the firm as well as from certain explanations given to us by Mr. Maxwell, that most of these queries are probably require modification. But there is no doubt that there are certain questions, even on the face of this statement, which require an explanation. It is true that on the figures as they stand on this sheet of paper, it appears that the creditors will get about eight annas in the rupee supposing that the whole liability due by the firm to the City of Glasgow Bank is clearly ascertained and is legally and justly fixed upon; but I cannot say that the figures of the assets are correct, because these assets represent the book value as it simply appears from the books of Nicol and Co. They do not represent the actual value at the present day.

The Chairman—But Mr. Maxwell alluded to the fact that he had deducted nine lakhs of rupees for depreciation.

Mr. Maxwell—I took the assets as they stand in our books; and I merely made a rough statement and said that, even deducting nine lakhs for depreciation, we should be able to pay about eight annas in the rupee.

Mr. Thakurdas—However that may be, I think it is a matter not fully explained to most of the native gentlemen present here; and that is why I say that the confirmation of this resolution ought to be adjourned to some future day. It is true that there are only two courses by which an estate like this could be wound up;—one by the regular course of law, and the other by a contract between the debtors and the creditors. The latter course is the most preferable in the interest both of debtors and creditors. I am desired to state that the gentlemen who instruct me have no wish whatever to waste the estate by taking it into a court of law; nor do they desire that the partners here should be put to any kind of annoyance or be vexed by unnecessary questions.

Mr. Maxwell—I am quite prepared to answer any possible question that may be put to me. If I can make anything clearer by doing so, it will not only be a pleasure to me, but a duty to the creditors.

Mr. Thakurdas—There is no doubt that the questions will greatly facilitate the proceedings of the meeting.

Mr. Maxwell—I am quite prepared to answer them. (Hear, hear.)

Mr. Thakurdas—That being so, there can be no objection to adjourn the meeting. One of the points on which these gentlemen have a doubt can be fully explained and their minds perfectly satisfied. That is in reference to the bank bills. It is difficult to catch the figures and keep them in the head so as to ascertain at once whether they are satisfactory. I am instructed that certain creditors had sent you a notice on Saturday last to prepare certain statements, which have not, however, been prepared.

Mr. Maxwell—It was simply impossible for us to get the statements ready. With great labour I prepared this; and I am quite prepared to answer any questions put in the letter this moment.

Mr. Robertson [of the Oriental Bank.]—I think it is simply a waste of time to go on in this way.

Mr. Thakurdas—If you adjourn the meeting we have no objection whatever.

Mr. Robertson—We had better go on with the proceedings.

The Chairman was about to put to vote the resolution adopted at the last meeting,

Mr. Maxwell (rising with tears in his eyes.)—Perhaps I should have said it sooner; but it is only due to Mr. Hall and to myself to state that we give up all our private effects. We have no private debts, and we give up everything to our creditors. (Hear, hear).

Mr. Sunderrao—It is the desire of the native creditors that, under the people altogether to punish the foolish petulance of a small and disappointed class. The true remedy is to widen the basis and scope of education, so as to open up new fields for the energies of the literate classes. The Government is endeavouring to do this by fostering technical and special education."

PILOTAGE AT KURRACHEE.

IN THE COURT OF THE CITY MAGISTRATE OF KURRACHEE, Oct. 2.

A. Campbell, European, Master Attendant, Kurrachee *vs.* J. Kennerley, European, Master of the S.S. Shadwan.

THE complainant Alexander Campbell, being present, the substance of the complaint was stated to the accused's Agent, A. G. Brigstock, and he was asked if he had any cause to show why he should not be convicted.

Mr. Leggett, Solicitor, replied for the accused. He said he had cause to show why he should not be convicted. Under Sec. 38 Ports Act, the words were "without urgent necessity." All that was necessary was to show excuse. Application was made for pilot, but no pilot was sent on board. Captain was obliged to leave without one. Waited until nearly 8 o'clock on the Sunday morning with Blue Peter flying. Application was made the previous day. By S. 61, certain fees may be charged for pilotage services. Revised Rules were framed on 6th July this year. Pilot Department received the fees the day before steamer sailed. On the Sunday, a supplemental bill of Rs. 15/- was paid. Certain items of charge were made for vessels to leave. He was prepared to prove these facts.

Mr. Constable, for the prosecution, did not admit the facts stated by Mr. Leggett. True, an application was made for a pilot, and the Harbour Master Captain's letter was received at 11-30. p.m. By rules, application should be made within office hours, at least 24 hours before the vessel is to sail. The order for pilot was put in as early as possible on Sunday morning at 7 o'clock. Steamer could not go before 8 o'clock, as tide did not serve till then. Captain went the first moment he could after tide served, without waiting for pilot. Chief Pilot Mason received order at 5 minutes to 8 o'clock and sent pilot alone, but the ship had gone. Pilotage fees were not paid on Saturday because port clearance could not be obtained before paying them. Previous application was received at 8-45 p. m. from Mr. Brigstock on behalf of the Captain.

Mr. Campbell was then examined. He deposed as follows:—

To Mr. Constable—I am the complainant in this case. The first intimation I received that Captain Kennerley was going was as nearly as I can state at 8-45 p. m. on Saturday, the 31st August. That is the first I received a letter from the Captain about 11-30 the same evening. Being in bed and woke out of my sleep, I did not take any immediate notice of it. The ship swung to the flood tide about 10 minutes to 8 o'clock on Sunday morning, and was taken out immediately,—and it would have been almost impossible to have taken it out before then. The tide would continue for about 6 hours. There would have been no difficulty in taking out the ship from 8 o'clock till between 2 and 3 o'clock in the afternoon. At about 7 o'clock on the Sunday morning, I put an order in the Order Book for a pilot to proceed to the Shadwan. (Order produced). The Order Book was sent off by a puttawalla to Mr. Mason, the Chief Pilot, who initialled the Order. I know his initials. I wrote a short answer to the Captain of the Shadwan, informing him that in future application's of the kind received out of office hours would not meet attention, unless in cases of emergency.

Cross-examined by Mr. Leggett—I don't consider Mr. Brigstock's letter a regular application. If I acted upon this application, the Captain might have piloted his vessel out himself. Under the rules to allow a vessel to be taken out without a pilot. I did not consider the letter an application for a pilot. I had no reason to believe that the Captain intended to take his vessel out without a pilot. I treated the letter as informal, and informed the person who brought it, verbally, that I was sorry I would have acted upon it, rather than have detained the Shadwan. I considered the application informal both because it did not come from the Captain himself, and did not make a distinct application for a pilot. The pilotage fees had been received on the Saturday about noon with the Captain's letter asking to be furnished with the requisite documents to enable him to take his vessel out. I do not know the date of your Pilot's appointment. I was not aware that she was going on the Sunday. There is a rule against vessels leaving on Sunday and I frequently received applications for a pilot on Saturday for vessels leaving on the Monday. The rule that applications should be made at least 24 hours before leaving is seldom infringed in this port. Since I have been acting Master Attendant in this port, there has been no vessel less than 24 hours in port, except in the mail steamer, and further we have a standing departmental order to receive regular application from the Agents to send them out at the appointed hour. This application covers the departure of all mail steamers. No separate application is made under the rules for mail steamers. It was handed in with applications made after 6 o'clock in the afternoon. I do not take any exception in the present case to the application being made after office hours, nor yet to the 24 hours notice. I am not in the habit of giving orders personally to the pilot, but write the order in the Order Book. The Shadwan was lying nearly opposite the pilot's houses. I noticed that the Blue Peter was not flying when the Shadwan was passing out of the harbour. I did not see the Blue Peter flying at all that morning. I had not noticed her until she got under way. I do not know if the extra fee of Rs. 15. was paid on the Sunday morning. It was received by my clerk. It was paid to the clerk without any authority from me to receive it. I have never known any other instance of a vessel going out without a pilot, or coming in.

Re-examined by Mr. Constable—I could not say how long the Shadwan was in harbour without reference to the log. She had been in harbour several days previous to the Saturday. The pilotage fees are always paid 24 hours or longer before the departure of the ship, and on receipt of the fees I give the Captain a certificate to state that there are no demands against his ship. Without this document, he would not clear from the Custom House. The duties of my clerk are to make out receipts and collect pilotage and mooring cess, and general office work.

At the request of both counsel the further hearing of the case was adjourned to Thursday, the 17th October.

TRIAL TRIP OF THE "KAISAR-I-HIND."

(The London and China Express.)

A NUMBER of invitations having been issued by the Chairman and Directors of the P. and O. Company to witness the trial trip of the latest addition to their fleet, about one hundred gentlemen collected at Waterloo Station on the 6th Sept., and proceeded by the 3-15 p.m. express to Southampton, where the ship was lying. Starting punctually at the time fixed, the train sped on through the pretty country which lines the route, the air of the fields bringing with it to the Londoners that feeling of health which invariably accompanies a journey in the fresh air, and this by the time Southampton was reached had imbued all the excursionists with a stock of exuberant spirits which lasted to the end, and materially aided in making the gathering such a memorable and pleasant one in every way. At six p.m. the railway journey came to an end, and the next proceeding was to embark on board the steam tug which had been told off to convey the visitors to the large steamer. The arrangements made by the authorities of the P. and O. Company were perfect: everything had been thought of. At the station a covered van was waiting to take the luggage, which, considering the trip was only to extend to the next day, was something enormous. Gladstone bags—those wonderful inventions with their fully distended sides—were thrown in by their hilarious owners, side by side with portmanteaux, tin cases, and every variety of this genus. The van was soon filled, and, the word forward having been given, all filed off towards the Docks, and went on board the tug, which proceeded shortly afterwards down the river. Looking ahead, about a mile off, might be seen the Hector, guardship, and close by her the Trenton, an American frigate, while a little beyond and between these two loomed the huge frame of what was at once known, by those on board familiar with P. and O. steamers, to be the Kaisar-i-Hind. Rapidly nearing her no one could help being struck with her appearance. The black hull, with its white streak, towered out of the water, surmounted by deck-cabins and a double-bridge—a veritable floating-castle of enormous dimensions, but yet, withal, riding the waters in a graceful way. It was very satisfactory to note the improvement in the lines of the vessel as compared with the other levi-thans of the company. The Kaisar-i-Hind had evidently been designed to a great extent for speed, and the experiences of the following day proved the success attained.

The visitors included Mr. R. W. Crawford and Mr. J. Crawford, Sir G. Elliot, Bart, Sir Herbert Sandford, Mr. James Caird, C.B., Sir B. Phillipe, Count Metaxa, Mr. W. N. Nicholson, Mr. L. Bidwell and Mr. Z. Brooks (of the Post Office), Mr. Chaloner Smith, Mr. A. H. Campbell, and a number of gentlemen representing the leading mercantile and banking-houses connected with the East.

In a short time, after arriving alongside, the transfer on board was effected, and in a very few minutes every one was at home. Mr. Bayley, Mr. Sutherland, and Mr. Bethune had been here, there, and everywhere during the journey down, personally seeing visitors received their cabin-tickets, and doing everything in their power to ensure the smooth working of the trip. On board Capt. Methven, his old familiar face beaming with a smile of satisfaction, welcomed the guests, and many were the congratulations he received from numerous friends on his hale appearance after so many years of a seafaring life. Passengers who had known him five-and-twenty years ago recalled pleasant times of old, and their memories took them back to the days of youth when the long journey to the East had been made together in vessels far different to the one now to be inspected. At 5.45 p.m. the well-known first dinner-bell changed forth its warning note which was attended to with a celerity which proved all on board were anxious to join in attacking the fare provided, and doing justice to the hearty welcome they had received. To half an hour the second bell sounded, and a general move was made to the saloon, which in dimensions far exceeds any of the company's ships. The single table laid for the occasion was tastefully but simply decorated, and the whole appearance of things was that of perfect completeness without any superfluous ornament. In the place of the usual candlesticks, with their weighted pedestals, the Kaisar-i-Hind has swing lamps, which give a more efficient light. Nothing occurred to mar the pleasures of a good dinner, menu bore evidence of variety: the cooking was excellent, the wines good, and the general air of enjoyment which prevailed on all sides such as to produce everywhere good fellowship. It was past nine o'clock before the lingering of eating were ended, after which the smokers proceeded to what they looked on as the greatest improvement on board—the smoking-room. This is, indeed, an advance in the comforts of P. and O.'s, and the building of a regular smoking-room with settees, a centre table, and all necessaries for smokers, has supplied a want long felt by travellers to the far East on board this company's vessels. The Security of Policyholders is made complete by the large subscribed Capital of the Company, guaranteed by a numerous and influential body of Proprietors, a list of whom is periodically registered in the Court of Chancery, pursuant to the provisions of the Special Act of Parliament (4 and 5 Vict., Cap. XCII.) empowering this Institution.
The highest attainable economy has been afforded to Policyholders by means of an entirely new set of Tables computed for the especial use of the Indian Branches of this Institution.
No labour or expense has been spared in the construction of these Tables: and the Directors have much gratification in directing attention to them, being sent that they will meet the views, and satisfy the expectations, of the Assuring Classes in India.

RETIRING PROVISIONS.

Policies are issued by which these may be secured, and at the same time a surviving family be protected in the event of premature death.

ASSURANCE BY TERMINATING RATES OF PREMIUM.

Under this system Assurances can be effected for the whole term of life, the annual premia for which cease after a given number of years.

FREE POLICIES.

Assurances by this system can never altogether be forfeited by non-payment of Premia.

CAUTION TO THE PUBLIC!

DR. BRIGHT'S PHOSPHODYNE.

WHEREAS it having become known to the Proprietors of DR. BRIGHT'S PHOSPHODYNE that a worthless imitation, bearing a similar name, is exported to India, China, &c., and endeavoured to be foisted on purchasers as equal in efficacy to Dr. Bright's Phosphodyne, they feel it due to the public to specially caution them against this compound and request their most careful attention to the following distinctive characteristics of Dr. Bright's (the only genuine) Phosphodyne.

1st.—That Dr. Bright's Phosphodyne is sold only in cases.
2nd.—The words "Dr. Bright's Phosphodyne" are clearly blown in each bottle.
3rd.—The Registered Trade Mark and Signat re of Patentee are printed on the label of every case.
4th.—Directions for use in all the following languages are enclosed in each case:
English, French, German, Italian, Dutch, Spanish, Portuguese, Russian, Danish, Turkish, Persian, Hindostani, Madrasee, Bengalee, Chinese, and Japanese.

Without which none can POSSIBLY be Genuine.

DR. BRIGHT'S PHOSPHODYNE

Is the Only Reliable Remedy for
NERVOUS AND LIVER COMPLAINTS
AND ALL
FUNCTIONAL DERANGEMENTS

*** DR. BRIGHT'S PHOSPHODYNE is patronised by the Aristocracy and the *elite*, extensively used in the Army and Navy, and strongly recommended by the leading Medica, Practitioners.

DR. BRIGHT'S PHOSPHODYNE

Is sold by all Chemists and Patent Medicine Vendors throughout the Globe.

In India, China, &c., DR. BRIGHT'S PHOSPHODYNE is generally sold at an advance on the English Price.

The high estimation in which Phosphorus is held is unquestionably due to its administration in this form. Therefore ask for

DR. BRIGHT'S PHOSPHODYNE.

And do not be purruaded to take any
Useless and Possibly Dangerous Imitation.

CAUTION TO MEDICINE VENDORS.

The Trade Mark, Label, &c., of DR. BRIGHT'S PHOSPHODYNE are duly entered at Stationers' Hall, London.
And are also registered in the chief cities of the world.
Chemists and Druggists are hereby warned that legal proceedings will be immediately instituted by the Authorised Agents against any persons or person selling Fraudulent Imitations of DR. BRIGHT'S (the only genuine) PHOSPHODYNE, from this date, 1st October, 1878.

GRIFFITH'S NEW ZINC WHITE PAINT

possesses the following advantages over White Lead and Oxide Zinc:—

Covers 100 per cent. more than Oxide Zinc.
Do. 25 do. do. White Lead.
It retains its whiteness under all conditions.
Will stand 500 degrees of heat.
Will never blister.
Is non-poisonous. Has no smell.
Has no chemical action upon metals.

This substitute for White Lead received the highest praise at meetings of Society of Arts, London; and Social Science Congress; is used by English and German Governments.

The following are a few extracts from numerous Reports already received:—

PROFESSOR PHIPSON says: "It is one of the most ingenious *useful* discoveries of modern times."

PROFESSOR BARFF, M.A., Lecturer on Paints and Colours to Society of Arts, Chemist to Royal Academy, &c.—"Has great body, covers well, absolutely resists the action of foul air, a red heat will not permanently alter its appearance, will always retain itsopacity."

JOHNSON & SONS, Assayers to Bank of England, H. M. Mint, Council of India, &c., &c.—"Much more stable than White Lead."

LUTSCHAUNIG & Co., Liverpool Assay Office.—"Body dense and opaque, covers better than White Lead, Sulphuretted Hydrogen has no effect upon it, does not blister, absolutely neutral towards Iron, &c., will entirely supersede White Lead."

T. A. BRITTON, late Surveyor to the Metropolitan Board of Works.—"Superior to any other similar substance I have ever met with—is a pure white, retains its opacity, is not affected by foul air, has a good body."

J. H. & S. JOHNSON, Oil and Paint Merchants, Liverpool.—"Has the body of Lead, but does not tarnish like it."

F. A. BARROW, White Lead Merchant, 191, Hope-street, Glasgow.—"Covers better and a greater surface, and in colour is superior to White Lead."

C. H. TOZER, Practical Decorator, &c., 56, Treherne-road, London.—"The best thing that has been brought under my notice."

G. W. BREWER, Decorator, 54, Crawshay-road, London.—"A beautiful White, far superior to White Lead. Will mix with colours White Lead destroys."

W. MALE, Painter, Oxton.—"Does not blister with a degree of heat that destroys Lead."
